oio - kid's eyewear made from TITANflex

So why oio?

The wonders of TITANflex make these frames incredibly tough and flexible - even after extreme bending, they immediately return to their original shape. As if nothing had ever happened! oio eyewear is ultra-light and ultra-flexible. This reduces the risk of injury during playtime and activity.

The unique kid's eyewear which offers the wonders of TITANflex. This is the ultimate material for kid's glasses - not only does it look totally cool, but it 's also incredibly light, flexible and tough. Just perfect for kids! What's more, oio eyewear has been specially designed to suit the physiognomy of kids and therefore offers ultimate comfort.
